THE VICTORY OF WEDNESDAY. Howell, Hammond, Hulsey and My

The ad litional dispatches which we print this morning, embodying confirmations of preceding estimates and official returns, not only puts the result beyond question, but shows the people have responded to the argumen's urged in favor of Atlanta with a unanimity unexpected and surprising, even to the most sauguine. We must confess that we were not prepared for such overwhelming majorities. The feeling in favor of retaining the capital in Georgia's commercial and political metropolis seems to have as samed the character of a ground swell resistless in its strength and astonishing in its proportions. Our tabulated esti nates, presented in THE CONSTITU-TION of yesterday, fall, as will be perceived, far below the actual figures. The little majority of 20,000 which we claimed, with a suspicion that the figures bordered upon extravagance is so utterly changed, even by the incomplete returns already given, that merely to allude to it here is to do small credit to our ca culation. As matters stand, we shall be surprised if the majority for Atlanta in the state

For several years past city elections in Atlan-ta have not been very close, and there has been very little general interest attached to them The nominations have usually absorbed all the interest and the circles has been a more matter of form.

The vote was the heaviest polled in a city election for several years. The negroes voted very heavily and their support ut equally divided between the two workers for each ticket in every ward. The opponents of the nominees cried "Down with the ring!" and the nominees boldly asserted that the independents were m rely dissatisfied politicians who could not obtain a nomination and ran on the idea of general disorganization of the party. There were charges mu ually brought and earnestly sustained. The count of the vote was watched with intense interest by the partisans of both tickets. All the wards except the fourth finished their counts by 11 o'clock, and it was then found that the fate of both tickets depended on the vote of the fourth ward. This caused

Harry Robinson

To-morrow night Harry Robinson famous minstrel troupe will appear at our opera house. They bring high commendation from wherever they have been, and we are sure the entertainment is excellent. The troupe ha everal specialties that are new and very rich From the Charleston papers we see that the received quite an ovation in that city. The News and Courier says: The very incleme ers of the burnt cork entertainment. The fact that Harry Robinson's minstrels were to perform at the Academy of Music was all sufficien cal appearance of the "end men," especially Sadler, McAllister and Goodyear, betokene much fun. It was, indeed, remarkable with what dexterity bones and tambourine went through their part of the entertainment. Sadler like old Cal Wagner, was "happy" all the while. The singing by Gale, Sadler, McAllister, Belknap (not W. W.) Stiles and Goodyear, was fine. The cornet solo by Lem H. Wiley was very good. George Robinson, in his female personations, is certainly the best performer that has been in our city. He has a real pretty, girlish face, and his "make up" is capital. The great silver statue clog, by Sadler, S.iles, Good-year, Welby and Pearl, must be seen to be ap preciated. It was perfect in every particular. Billy McAllister, in his celebrated Dutch songs and Tyrolean warbles; Thomas Sadler, with his baby elephants, and We by and Pearl in their songs and dances, was very humorous. The troupe is the finest of the kind that has appeared before a Charleston audience this sea

An Elegant Phæton. The running gear of the phaston is remarkably beautiful and light, and moves as smooth as possible. The phaston was finished by the finest workman in the south, and is a model of the art of carriage making. When - In our notice of the entertainment Judge Lochrane appears on the streets with hi elegant new turn-out it will be a very fine advertisement for the skill and taste of Mr.Finney, who has sent to various parts of the state specimens of his work manship.
